

SLAYER MSRP: \$7,950

The Slayer Ice House Skid is a one of a kind ice house. The Slayer features 5 fishing holes and 1 spear hole. The all-aluminum frame is built without wood and seams, leaving no opportunity for water to penetrate. Our chassis is insanely strong and made of a 1 piece welded design. Weighing only 880lbs, we built the Slayer with fiberglass on the interior and exterior with a gel coat exterior finish for a clean look. The Slayer is a skid house that allows you to be on the lake earlier in the season. You can also pull the skid house from either direction which makes moving it faster and easier!

- ▶ BUILT WITHOUT WOOD
- ▶ FIBERGLASS INTERIOR & EXTERIOR
- ▶ NO SEAMS
- ▶ GEL COAT FINISH
- ▶ 5 FISHING HOLES
- ▶ 1 SPEAR HOLE
- ▶ 4 WINDOWS
- ▶ 6½' X 10' LAYOUT
- ▶ STRONG, WELDED, CHASSIS

The floor is slip-resistant and is made from a dura bond panel system for extra strength. The aluminum studs are spaced perfectly so more catch covers can be added throughout the house.
