STALKER

MSRP: \$4,499

AVAILABLE ACCESSORIES

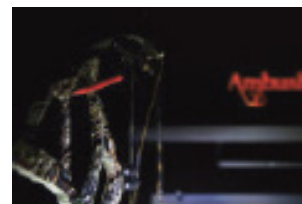

The Stalker Hunting Blind is our eight sided blind offering 360 degree visibility. The shape of the blind and unique window configuration provide multiple shot opportunities with any choice of weapon. If you are an avid archery hunter, look no further. With our large window design, even an inexperienced archer hunter can feel confident shooting out of both the vertical and horizontal windows. The Stalker is built with our Durabond Panel System® providing a strong, quiet, warm, and scent contained blind. All of our blinds have an aluminum frame which are fully insulated to keep you comfortable and quiet. The black stealth walls and tinted windows ensure optimal concealment. The Stalker hunting blind is 6'x6' in size, with eight windows and equipped with four leg brackets that accept a 4"x4" for added elevation.
